

va-Q-pack

Product Data Sheet

General information

- High performance single-use shipper
- Very light weight
- 5 functional layers including EPS shock absorption
- Specific heat flow through the va-Q-pack: Q-value 0.15 W/K

Dimensions and weight

- Article No.: BC000023
- Outside: 393 mm x 393 mm x 445 mm (h)
- Inside: 260 mm x 260 mm x 300 mm (h)
- Weight (Empty box): 4.5 kg

Options

- Different sizes available upon request
- Variation of layers and additional protection available
- Printing on the carton on demand
- Customized sizes supporting various temperature ranges available

Application

- Universal long distance transport of temperature sensitive goods with a small volume: Medicine, pharmacy, biotechnology, etc.

Performance example

- Outside temperature: Constant +30 °C
- Inside temperature range: +2 °C ... +8 °C
- Contents: 6 pcs va-Q-accus chilled
- Performance: ca. 3 days autonomy within +2 °C ... +8 °C range
